Dear Fellow Enthusiast: As you can see, we have an all-new catalog dedicated exclusively to GM X-body cars, including Chevy II and Nova. Due to the popularity of these cars, we thought it best to start issuing new catalogs dedicated to make and models to help our distributors and end-users find the restoration parts they want and need. Additionally, we have recently expanded our offering of new parts for the GM X-body line and want to ensure that you have the information you need at your fingertips. If you want to know the parts we offer for specific model years, please visit our website at www.metromp.com. There you can create and print-out a custom catalog for any model car you are working on and instantly know exactly what is available from Metro Moulded Parts, Inc. In addition to this parts catalog for the GM X-body, we are working on numerous others that will support the most popular automotive lines in the restoration marketplace. Please contact your Customer Service representative to request catalogs for the car models or to ask about new part offerings.

Don't let anyone tell you there's no difference in rubber parts! Here at Metro, we continue to work hard to make our premium quality DEM reproduction and restoration parts the very best available by paying careful attention to the smallest details. Compare our products before buying any other brand! We're sure you'll find our parts give you the best overall value when you compare softness, appearance, fit, performance, durability and warranty. Attention to quality and detail are what we call "The Visible Difference." Prove it to yourself by comparing brands. We welcome the challenge.

To all of you who helped make Metro Moulded Parts, Inc. the leading supplier of restoration rubber products, our sincerest
fi fi fi fi fi fi **Thanks!!**

X-body Basic Kits!

Our basic kits include the vital pieces of weatherstripping you need to get your restoration or repairs started right! Kit prices are typically about 10% less than the individual parts they contain. The same high quality Metro parts are used in all our basic weatherstrip kits and carry the same "no hassle", 5-year full replacement warranty and 100% satisfaction guarantee!

Basic kits contain the "dynamic seals" that seal the major openings in your car to keep out wind and weather. For 2-door hardtops, a basic kit includes the door, roof-rail and trunk seals. Basic kits for sedans include the door and trunk seals. Metro Moulded Parts, Inc. makes thousands of additional detail rubber parts for hundreds of different makes and models of cars and trucks. If you don't see what you are looking for, just give us a call. The parts you need might be available and ready to ship the same day you order!

"Our basic kits typically cost about 10% less than the individual parts they contain. That's like getting the trunk seal for free!"

Fast Fact: Most of Metro's detail dense rubber parts are molded in large presses at 50-120 tons of pressure to produce jet-black parts with smooth surfaces and precise details. Our molds are milled from single metal blocks to tolerances of .001 in. to minimize flash lines in finished parts. Mold cavities are polished regularly to produce parts with high luster and smooth contours. Computer-controlled temperature and cure cycles eliminate under-cured and scorched parts that last longer and perform better.

“Sure Fit” Roof-rail Seals!

Roof-rail seals fit into channels or spaces provided in the roof-rail of hardtop cars, providing an upper seal for the top of the side window. This is a dynamic seal that prevents wind, water and noise from entering the passenger space.

Since rubber ages at about the same rate, when you are replacing the door seals on your car, you should consider replacing the roof-rail seals at the same time.

Insist on Metro Quality!

**Ask for Metro
by Name!**

At Metro we believe that quality parts go beyond just working. We formulate rubber to meet the requirements of the part, instead of using cheap, commodity bulk rubber for all applications. Our standards include coated, molded-in steel cores, correct tool-installed clips and beautifully detailed buter surfaces. We even re-create details from the original parts that you won't be able to see once the part is installed! All our standards are necessary to provide you with show-quality results. Don't settle for less! Find out what you are getting for your money and ASK FOR METRO QUALITY. You'll be glad you did. There truly is a Visible Difference..

Lifetime Warranty? Well ... Maybe

Don't be fooled by claims of "Lifetime Warranty" on the rubber parts you buy! "Lifetime Warranty" is a legal term that defines a period of use set by law that varies by state. It can be as little as three years. Metro SUPERsoft® weatherstrip, seals and detail rubber parts come with a 5-year Full Replacement Guarantee. We promise that if your Metro-made part fails at any time during that time we'll replace it free of charge. That's our "No Hassle" guarantee. Don't settle for a simple promise of satisfaction. Metro's warranty is the best you can get! Barhonne!

The Quality is in the Details!!!

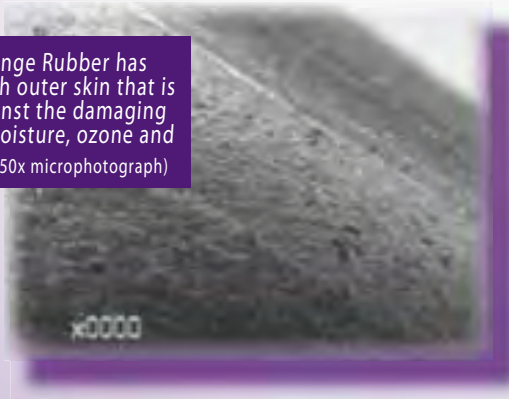

Metro SUPERsoft® brand Sponge Rubber has a uniform, closed-cell microstructure that forms a buter skin free from exposed cells and flaws. Unlike competitor's products that are coated with buter latex skin, SUPERsoft® brand Sponge Rubber seals won't bruise, gall, blister, glaze, crack or peel.

SUPERsoft brand Sponge Rubber has regular patterns of self-enclosed microcells that seal out moisture and harmful ozone. (100x microphotograph)

Competitive products have irregular structure with dense areas and open areas ... producing a harder seal and creating worm-holes that trap moisture and ozone. (100x microphotograph)

SUPERsoft brand Sponge Rubber has an integrated, smooth outer skin that is the first defense against the damaging effects of UV light, moisture, ozone and chemical aromatics. (50x microphotograph)

Competitive products have skin with shingles and surface tears that provide paths for moisture and gases to penetrate. (50x microphotograph)

The Metro Difference!

Some people think a rubber part is just a rubber part. But there's a world of difference! SUPERsoft® brand weatherstrips and seals are made from a proprietary rubber formula that took years to perfect. Our molds are designed using CAD/CAM technology and machined to the closest tolerances using state-of-the-art CAD/CAM design

and CNC milling tools. Numerical temperature and pressure controls ensure consistent cure cycles that eliminate scorched and under-cured parts. Hot-bonded joints and tough Nylon 6-6 mounting pins ensure your seal will stand up to rough handling. Besides quality in design and construction, our seals are up to 35% softer than other brands. **That's a difference you can see and feel!**

Most Items Ship the Same Day!

Manufacturing and sales take place at our central facility in Minneapolis, Minnesota. From a well-stocked warehouse to computer processing of your orders, we're committed to providing you with both the highest quality product and complete service support.

X-body Body & Fender Parts!

New body and fender parts make up the little cosmetic details that give your car a refined, elegant look. Our dense rubber mounting pads and gaskets are precision molded parts that reproduce the look and fit of the original!

'61-61	Chevy II, Nova. Window regulator roller and hut. Fits front front door window guides. Each.	WF 904
'62-62	Chevy II, Nova. Door handle pads. 5/8 in. long. 1/4 in. wide. Set. R&L.	MP 547-A
'62-63	Chevy II, Nova. Door bumper. 3/16 in. high. 5/8 in. wide. Each.	DB 33-B
'62-67	Chevy II, Nova. Door lock pillar seal. Made with steel cores. Pair. R&L.	ALP 5009
'62-67	Chevy II, Nova. Bumper to body seal. 3/16 in. wide. 5/8 in. long. Each.	BG 109-N
'62-67	Chevy II, Nova. Fuel door bumper. Dome top. Fits 3/16 in. hole. Each.	SB 78
'62-67	Chevy II, Nova. Fuel door bumper. Flat top. Each.	SB 79
'62-74	Chevy II ('62-69), Nova ('62-74). Trunk bumper. Fits flower corner. Deck lid. 5/16 in. OD.	SB 34
'62-74	Chevy II ('62-69), Nova ('62-74). Door bumper. Made with twin retainers. 1/8 in. high. 1/16 in. wide. Each.	SB 35
'62-78	Apollo ('73-75), Chevy II ('62-70), Nova ('62-78), Omega ('73-78), Phoenix ('77-79), Skylark ('75-78), Ventura ('71-77). Door lock unbeaded cylinder gasket. 3/16 in. OD. Each.	UM 1600-100
'64-64	Chevy II. 8-piece lens gasket kit. White sponge. Set.	LG 2004-109
'64-65	Chevy II, Nova. Door and trunk bumper. Made with steel core, like original. 7/8 in. dia. Each.	SB 62
'64-66	Chevy II. Mirror gasket. 1/2 in. wide. 5/8 in. long. Each.	MP 547-O
'64-68	Chevy II, Nova. License plate bumper. Fits 1/4 in. dia. hole with 1/4 in. high top. Rubber. Each.	SB 82
'64-72	Chevy II ('64-69), Nova ('64-72), Ventura ('71-72). Door handle unbeaded mounting pads. 4-piece set. R&L.	UM 2005-100
'64-78	Apollo ('73-75), Chevy II ('64-69), Nova ('64-78), Omega ('73-78), Phoenix ('77-78), Skylark ('76-78), Ventura ('71-77). Door lock rod ferrule. Polished stainless steel with felt insert. Fits 5/8 in. hole. Each.	RP 303-F
'65-65	Chevy II, Nova. Tail light seals. 1/4 in. inside length, 9/16 in. inside width. Set of four.	MB 201
'65-68	Chevy II, Nova. License plate bumper. Fits 1/4 in. hole. Each.	SB 75
'65-72	Chevy II ('65-69), Nova ('65-72), Ventura ('71-72). Fuel door bumper. 5/16 in. OD. 7/8 in. high. Each.	SB 81
'66-67	Front antenna mount pad. 2-door sedan and station wagon. Hug flip. 1/2 in. dia. 3/4 in. OD. Each.	MP 546-J
'66-67	Chevy II, Nova. Tail light gasket. Hick, molded soft rubber seal. Replaces OEM # 7587759. Do not confuse with lens gasket. Pair.	MB 40
'66-68	Chevy II, Nova. Mirror pad. Mirrors without remote control. 1/4 in. wide. 5/16 in. long. Each.	MP 547-H
'68-74	Chevy II ('68-69), Nova ('70-74). Door bumper with twin retainers. 3/4 in. high. 1/2 in. wide. Each.	SB 32
'77-77	Nova, Omega, Phoenix, Skylark, Ventura. Jack handle tie-down hut. Replaces OEM # 11502763.	WF 3502

Why Not Do It Right the First Time?

Consider what it costs you in time, money and aggravation to do something over. When you consider how much time and effort you've already invested in your restoration project, does it make sense to skimp on the rubber? There's cheap stuff out there. The difference in cost is a few dollars per set of seals. But what does it cost you in the long run to buy cheap? Drilling holes ... replacing broken pins ... adjusting and re-adjusting doors and windows. Not to mention replacing the seals in a few years when they fail. And they will fail. Don't settle for less! Find out what you are getting for your money and ASK FOR METRO QUALITY! You'll be glad you did. There truly is a Difference ...

X-body Snap-in Bumpers!

Your car's door and trunk bumpers and stops serve as a baseline for body panel adjustment. For best results, install new rubber bumpers and pre-align the body panels before you paint your car.

Universal Snap-in Bumpers

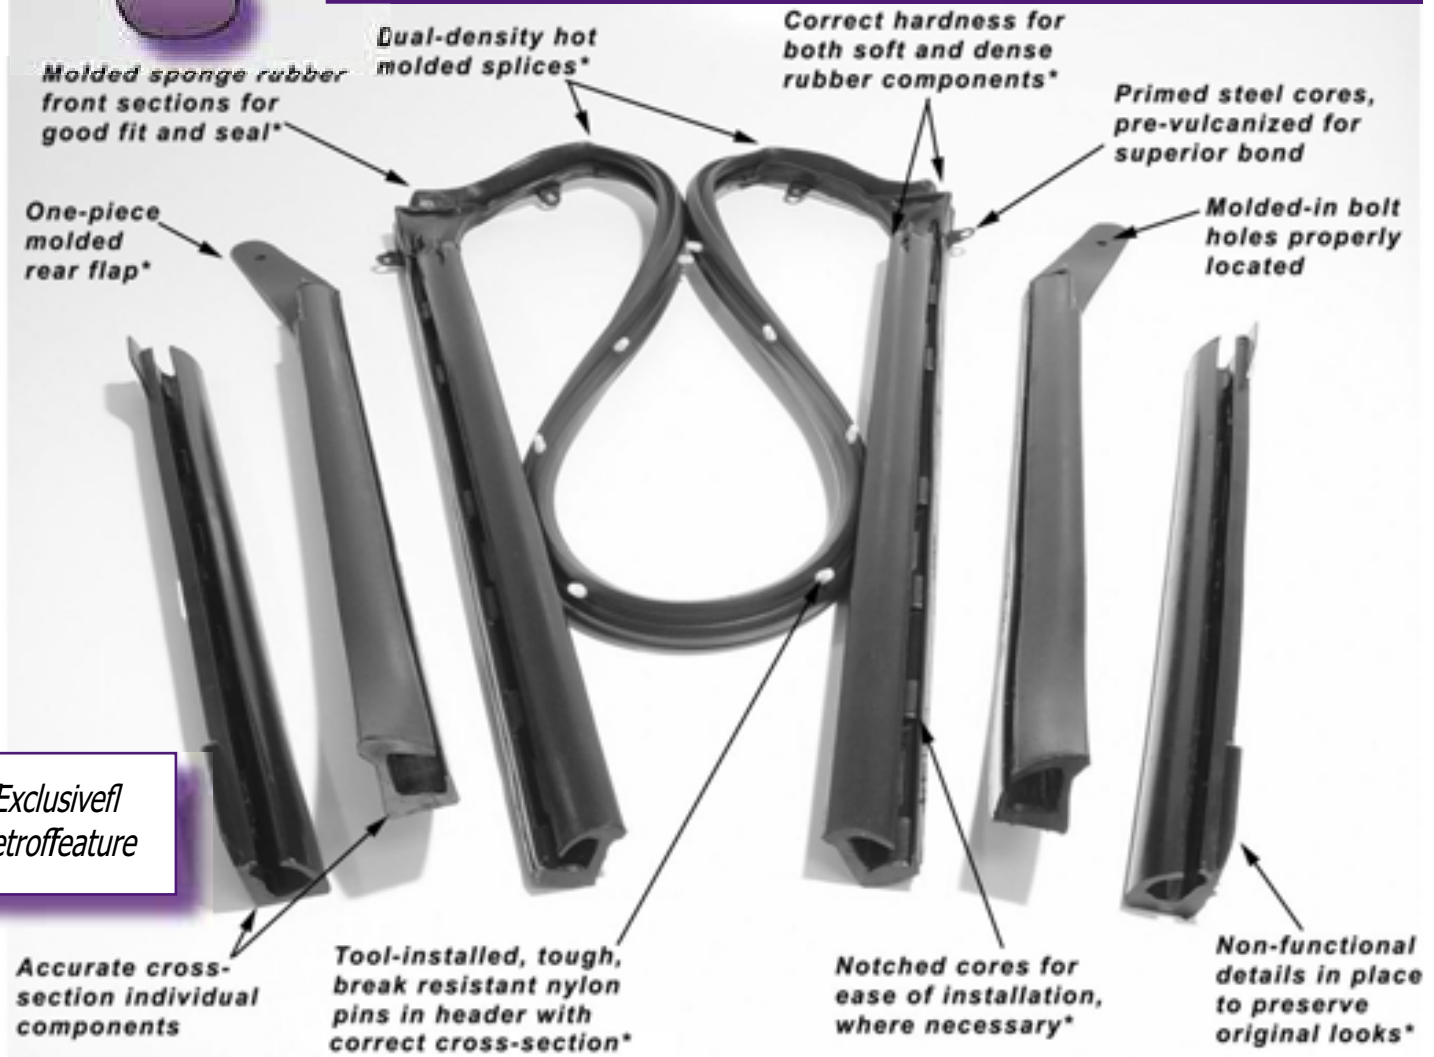

Illustrations approximately actual size.

Restoration experts know that cutting corners can cost them a lot in the long run. At Metro, we don't cut corners. We use only galvanized, corrosion-resistant metal cores. Our rubber formulations contain no filler materials and are designed to match the specific application of the parts we make. We use only tough, hardened nylon mounting clips and countersunk steel positioning pins for the correct profile in all bur seals. CNC-machined molds and computer-controlled cure cycles produce smooth parts with a sleek, jet-black, non-fade finish that looks better, performs better and lasts years longer than anything else you can buy! And we back all our parts with a "No-Hassle", full-replacement, 5-year warranty. That's why Metro Moulded Parts has been the first choice for restoration experts for decades.

Compare Metro's parts to any of our competitors' parts and you'll quickly see and feel which product is superior in looks, performance and durability. Try it yourself. Do a point-for-point comparison of the items listed below and you'll soon see the quality advantage with Metro!

Molded sponge rubber front sections for good fit and seal*

Dual-density hot molded splices*

Correct hardness for both soft and dense rubber components*

Primed steel cores, pre-vulcanized for superior bond

One-piece molded rear flap*

Molded-in bolt holes properly located

*Exclusive Metro feature

Accurate cross-section individual components

Tool-installed, tough, break resistant nylon pins in header with correct cross-section*

Notched cores for ease of installation, where necessary*

Non-functional details in place to preserve original looks*
