Dear Fellow Enthusiast: As you can see, we have an all-new catalog dedicated exclusively to GM A-body cars. Due to the popularity of these cars, we thought it best to publish a dedicated catalog to help our distributors and end-users find the restoration parts they want and need. Additionally, we have recently expanded our offering of new parts for the GM A-body line and want to ensure that you have the information you need at your fingertips. If you want to know which parts we offer for specific model years, please visit our website at www.metrommp.com. There you can create and print out a custom catalog for the model car you are working on and instantly know exactly what is available from Metro Moulded Parts, Inc.! In addition to this parts catalog for the GM A-body product line, we have published a dozen others that support the most popular automotive lines in the restoration marketplace. Please contact your Metro Customer Service representative to request catalogs for other car models or to ask about new part offerings.

Don't let anyone tell you there's no difference in rubber parts! Here at Metro, we continue to work hard to make our premium quality OEM reproduction and restoration parts the very best available by paying careful attention to the smallest details. Compare our products before buying any other brand! We're sure you'll find our parts give you the best overall value when you compare fit, appearance, softness, performance, durability and warranty. Attention to quality and detail are what we call "The Visible Difference." Prove it to yourself by comparing brands. We welcome the challenge.

To all of you who helped make Metro Moulded Parts, Inc. the leading supplier of restoration rubber parts, our sincerest —

Thanks!!

GM A-body Basic Kits

Our basic kits include the vital pieces of weatherstripping you need to get your restoration or repairs started right! Kit prices are typically about 10% less than the individual sets of parts they contain. The same high quality Metro parts are used in all our basic weatherstrip kits and carry the same "no hassle", 15-year full replacement warranty and 100% satisfaction guarantee!

Basic kits contain the "dynamic seals" that seal the major openings in your car to keep out wind and weather. For 2-door hardtops, a basic kit includes the door, roof-rail and trunk seals. Basic kits for convertibles include the door, convertible top seals (including the header seal in most cases) and trunk seal. For sedans, a basic kit contains the door seals and trunk seal.

Metro Moulded Parts, Inc. makes thousands of additional detail rubber parts for hundreds of different makes and models of cars and trucks. If you don't see what you are looking for, just give us a call. The parts you need are probably available and ready to ship the same day you order!

RKB 2003-108

"Our basic kits typically cost about 10% less than the individual parts they contain. That's like getting the trunk seal for free!"

“Sure fit” Roof-rail Seals

If you are thinking about replacing just the door seals or roof-rail seals on your A-body car, consider this: rubber seals age at about the same rate. Chances are that if your door seals are failing, your roof-rail seals aren't far behind. Also, our door and roof-rail seals are "tuned" to work together to provide a complete sealing solution. If you mix old and new seals – or mix seals from different makers – you may not get the result you want. Our replacement style basic kits offer an economical alternative to ordering individual parts that makes your restoration more complete and saves you money too! And you get the correct factory look!

'64-'65	Molded roof-rail seals. GM A-body, 2-door hardtop only. Replaces OEM# 4409034/5. Pair. R&L.	RR 5000

Why Not Do It Right the First Time?

Consider what it costs you in time, money and aggravation to do something over. **When you consider how much time and effort you've already invested in your restoration project, does it make sense to skimp on the rubber?** There's poor quality stuff out there. The difference in cost is a few dollars per set of seals. But what does it cost you in the long run to buy cheap? Drilling holes ... replacing broken pins ... adjusting and re-adjusting doors and windows. Not to mention replacing the seals in a few years when they fail. And they will fail. Don't settle for less! Find out what you are getting for your money and **ASK FOR METRO QUALITY!** You'll be glad you did. **There truly is a Visible Difference ...**

Insist on Metro Quality!

Ask for Metro by Name!

At Metro we believe that quality parts go beyond 'just working.' We formulate rubber to meet the requirements of the part, rather than use cheap, commodity bulk rubber for all applications. Our standards include coated, molded-in steel cores to prevent rust, the correct tool-installed clips, and beautifully detailed outer surfaces. We even re-create details from the original parts that won't be seen once the part is installed! All of our standards are necessary to provide you with show-quality results. Don't settle for less! Find out what you are getting for your money and **ASK FOR METRO QUALITY.** You'll be glad you did. **There truly is a Visible Difference ...**

The Metro Difference!

Some people think a rubber part is just a rubber part. But there's a world of difference! SUPERsoft® brand weatherstrips and seals are made from a proprietary rubber formula that took years to perfect. Our molds are designed using CAD/CAM technology and machined to the closest tolerances using state-of-the-art CAD/CAM design

and CNC milling tools. Numerical temperature and pressure controls ensure consistent cure cycles that eliminate scorched and under-cured parts. Hot-bonded joints and tough Nylon 6-6 mounting pins ensure your seal will stand up to rough handling. Besides quality in design and construction, our seals are up to 35% softer than other brands. **That's a difference you can see and feel!**

A-body Chassis & Engine Parts

Keep your car "squeak-free" with new, live rubber body cushions, stabilizer bushings and suspension bumpers. New rubber makes your car's undercarriage work and sound better.

'64-present	Hole plug. Fits 3/4 in. dia. hole. Rubber. Each.	SM 74

'73-'77	Pre-cut hood insulation. Each.	HI 27
'80	Hood insulation fastener. Each.	WF 7-P
'80-'85	Hood insulation fastener. Each.	WF 7-N

Lifetime Warranty? Well... Maybe

Don't be fooled by claims of "Lifetime Warranty" on the rubber parts you buy! "Lifetime Warranty" is a legal term that defines a period of use set by law that varies by state. It can be as little as three years. Metro SUPERSOFT® weatherstrip, seals and detail rubber parts come with a **15-year Full Replacement Guarantee**. We promise that if your Metro-made part fails at any time during that time **we'll replace it free of charge**. That's our "No Hassle" guarantee. Don't settle for a simple promise of satisfaction. Metro's warranty is the best you can get! Bar none!

The Quality is in the Details!

Metro SUPERsoft® brand Sponge Rubber has a uniform, closed-cell microstructure that forms an outer skin free from exposed cells and flaws. Unlike competitor's products that are coated with an outer latex skin, SUPERsoft® brand Sponge Rubber seal won't bruise, gall, blister, glaze, crack or peel.

SUPERsoft brand Sponge Rubber has regular patterns of self-enclosed microcells that seal out moisture and harmful ozone. (100x microphotograph)

Competitive products have irregular structure with dense areas and open areas ... producing a harder seal and creating worm-holes that trap moisture and ozone. (100x microphotograph)

SUPERsoft brand Sponge Rubber has an integrated, smooth outer skin that is the first defense against the damaging effects of UV light, moisture, ozone and chemical aromatics. (50x microphotograph)

Competitive products have skin with shingles and surface tears that provide paths for moisture and gases to penetrate. (50x microphotograph)

A-body Clips & Fasteners

Add the finishing touches to your restoration with our OEM replacement clips and fasteners!

Door Hardware

-	Door flange weatherstrip clip. Black plastic. 9/16 in. long. Each.	WF 4
'64-'67	Door and quarter-window inside handle retaining clip. Each.	WF 602
'64-'72	Lower lock rod clip. Uses up to four per car. Each.	WF 118
'64-'72	Hardtop and Convertible. Crank handle knob escutcheon plate underlay. Gray nylon. Each.	WF 3600
'64-'72	Door edge weatherstrip clip. Black plastic. Each.	WF 5
'66-'72	Door edge weatherstrip clip. Black plastic. Each.	WF 3
'68-'77	Door lock rod ferrule. Stainless steel with felt insert. Each.	RP 303-F

Window Hardware

-	Windshield reveal molding clips and fasteners. 75-piece assortment.	4P 24
-	Window channel and sweeper clip. 5/8 in. wide. Each.	WF 8-A
-	Window channel and sweeper clip. 9/16 in. wide. Each.	WF 9
-	Sweeper and general-purpose clip. 5/16 in. wide. Each.	WF 13
-	Window channel and sweeper clip. 5/8 in. wide. Each.	WF 14
-	Window channel clip. 3/4 in. wide. Steel. Each.	WF 16
-	Rear glass reveal steel molding clip. Universal. Each.	WF 201
'65-'83	Rear window reveal molding clip. For GM station wagons. Steel. Each.	WF 208

**The Visible Difference
is in the Details!**

Restoration experts know that cutting corners can cost them a lot in the long run. At Metro, we don't cut corners. We use only galvanized, corrosion-resistant metal cores. Our rubber formulations contain no filler materials and are designed to match the specific application of the parts we make. We use only tough, hardened nylon mounting clips and countersunk steel positioning pins of the correct profile in all our seals. CNC-machined molds and computer-controlled cure cycles produce smooth parts with a sleek, jet-black, non-fade finish that look better, perform better and last years longer than anything else you can buy! And we back all of our parts with a "No Hassle", full-replacement, 15-year warranty. That's why Metro Moulded Parts has been the first choice of restoration experts for decades.

Compare Metro's parts to any of our competitor's parts and you'll quickly see and feel which product is superior in looks, performance and durability. Try it yourself. Do a point-for-point comparison on the items listed below and you'll soon see the quality advantage is with Metro!
