FINE QUALITY PARTS FOR COBRA KIT CARS

COBRA REPLICA DETAIL PARTS

EX 17-B ~ COBRA FRONT BUMPER ARM GROMMETS

\$14.00 4-piece set

Show Quality Bumper Arm Grommets for All Cobra Replica Cars

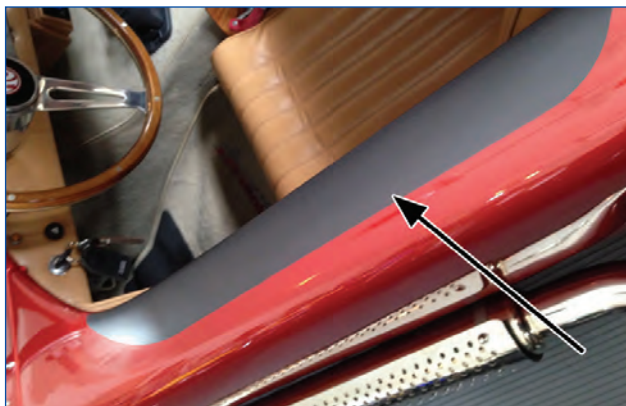

Help keep your bumpers from rattling while protecting your expensive paint with these **EX 17-B Front Bumper Arm Grommets**. These bumper arm grommets are specially fabricated using advanced rubber formulation and fabrication techniques to produce parts that will *outlast* and *outperform* any competing parts you can find. All of our dense rubber parts contain only virgin rubber, with none of the fillers and accelerants that cause other brands of solid rubber parts to prematurely age and fail.

In addition, all our solid rubber parts include protectants added during the molding process that provide ozone and UV protection to resist these agents of decay. Further, our rubber formulations are targeted to the specific application for the intended part. These features, along with our advanced computer controls and vulcanization processes, produce long-life solid rubber parts in a class by themselves and help ensure that you get full value for the money you invest in upgrading your Cobra replica car.

MG 6501 SERIES ~ COBRA DOOR BRA AND ARM REST PAINT PROTECTOR PADS

\$24.50 per pair

Finally, a super-easy way to prevent chips and scratches to the door ledge of your classic Cobra while improving its beauty and style! Stops damage from watches, rings, bracelets, shirt buttons, zippers and cell phones. If you have new paint, our door bras are a "must have" item! If you own an older Cobra, they'll cover unsightly marks and scratches already present. With our peel-and-stick application, they only take a minute to install and are easily removed with a hair-dryer when needed with no damage to your paint. Available in seven colors and styles to harmonize with any paint scheme.

NOTE: MG 6501 Series Cobra Door Bras will not fit Classic Roadster replica doors. Parts to fit those cars are coming soon. MG 6501-BM Black Matte is shown.

COBRA REPLICA DETAIL PARTS

MP 621-T ~ COBRA TRUNK LATCH PADS

\$5.00 each

Replace that cheap-looking, flat rubber factory pad with this exact-fit, show quality trunk latch pad made specifically for Cobra replica cars.

Trunk latch pad placement.

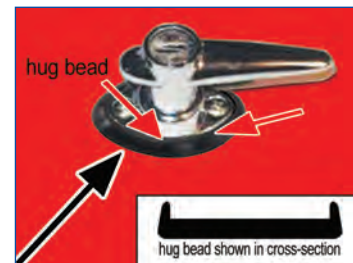

Fabricated from the highest quality dense rubber and equipped with a hug bead that surrounds the latch base, this pad both protects your paint and looks great! Made in the USA!

MP 621-C ~ COBRA HOOD LATCH PADS

\$10.00 pair

Finish your chrome details and protect your pricey paint job with our show-quality hood latch mounting pads. Fabricated from the highest quality dense rubber and equipped

Hood latch mounting pad placement.

with a hug bead that surrounds the latch base, they are designed to absorb shock – thereby reducing damage to the paint and body and keeping your car looking new longer. Sold in pairs. Made in the USA!

LP 40 ~ COBRA TRUNK WEATHERSTRIP

\$3.65 per foot

Seal out water and dirt from your Cobra trunk compartment with our **LP 40 Cobra Trunk Weatherstrip**. This seal is made from the highest quality EPDM sponge rubber for years of reliable use. This seal is somewhat heavier than comparable seal LP 40-A and up to 30% softer than competing products. Use **3M 8008 Black Weatherstrip Adhesive** to install. Sold by the foot.

LP 60 ~ COBRA HOOD & COWL SEAL

\$3.65 per foot

LP 60 Cobra Hood & Cowl Seal is somewhat larger and heavier than **LP 54-A Small Hood Seal** and is an ideal choice for the cowl seal on your Cobra. It is made from the same top quality EPDM sponge rubber and we guarantee it against chemical breakdown for 15 years. Use **3M 8008 Black Weatherstrip Adhesive** to install. Sold by the foot.

LP 40-A ~ COBRA DOOR WEATHERSTRIP

\$3.65 per foot

Help keep dust, dirt, sand, grit and water from the interior of your cherished Cobra with our **LP 40-A Cobra Door Weatherstrip**. Somewhat heavier than comparable seal LP 40-A and up to 30% softer than competing products. Use **3M 8008 Black Weatherstrip Adhesive** to install. Sold by the foot.

LP 63-C ~ DOOR & TRUNK SIDE SEAL

\$4.20 per foot

Our **LP 63-C Cobra Door & Trunk Side Seal** is an excellent choice for sealing your door or trunk. Made from the same top quality EPDM sponge rubber as our other seals, we guarantee it against chemical breakdown for 15 years. Use **3M 8008 Black Weatherstrip Adhesive** to install. Sold by the foot.

LP 54-A ~ COBRA SMALL HOOD SEAL

\$3.65 per foot

Keep your Cobra engine looking clean and bright and reduce vibration and wind rattle with our **LP 54-A Cobra Small Hood Seal**. Unlike cheap foam seals, EPDM sponge rubber will not degrade when exposed to pollutants like engine exhaust and petroleum gases – giving you years of reliable service. Use **3M 8008 Black Weatherstrip Adhesive** to install. Sold by the foot.

3M 8008 ~ BLACK WEATHERSTRIP ADHESIVE

\$12.95 tube

A strong, flexible, rubbery adhesive that can withstand vibration and extreme temperature variations. It can be used to bond automotive weatherstripping and is a great adhesive for holding paper, cork, or rubber gaskets in place during installation. 5 oz. tube.

- Fast drying, strong, flexible, rubbery adhesive with good oil and water resistance
- Withstands vibration & extreme temperature variation
- Black color designed to match vehicle weatherstrip for virtually invisible repair
- Can be used to bond weatherstripping to car doors, trunks, T-tops, moon roofs and sun roofs

COBRA REPLICAS DETAIL PARTS

MG 621-BC ~ COBRA WINDSHIELD BASE TRIM PADS

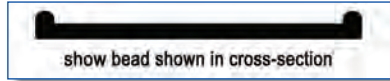

\$14.50 pair

Windshield base trim pad with show bead.

Protect your paint and detail-out your Cobra like a professional with our **MG 621-BC Cobra Windshield Base Trim Pads**. These dense rubber pads were made with a show bead by request specifically for Shelby Cobra replica cars. Use with metal trim top plates (available from others) for a real touch of class! Sold in pairs. Made in the USA!

show bead shown in cross-section

HR 17 ~ COBRA HEADLIGHT TRIM RING SEALS

\$42.50 pair

Specially created for Cobra replica cars, our **HR 17 Cobra Headlight Trim Ring Seals** are made to replace poor quality originals. Designed with a molded-in hug

Headlight ring-seal hug bead.

bead, these seals both fill the gap between the trim rings and body and hug the trim ring outer circumference to provide a superior functional seal with show-quality looks. Sold in pairs. Made in the USA!

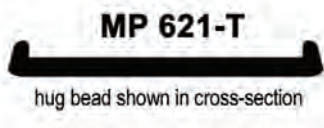

MP 621-CT ~ COBRA HOOD LATCH & TRUNK LATCH MOUNTING PADS SET

\$14.00 3-piece set

Save money by replacing all your Cobra hood and trunk latch pads at the same time! Our **MP 621-CT Hood and Trunk Latch Pad Set** includes one pair of our popular **MP 621-C Hood Latch Pads** and one each of our **MP 621-T Trunk Latch Pad**. 3-piece kit. Made in the USA!

hug bead shown in cross-section

hug bead shown in cross-section

FM 6500 ~ COBRA BACKDRAFT FLOOR MATS

COMING SOON!

\$125.00 pair

All rubber, show-quality floor mats give your Cobra a look of distinction unlike anything else. Molded in one piece from the highest quality tooling, our **FM 6500 Cobra Backdraft Floor Mats** are made to sew or glue directly

into the rug. *Fits Backdraft Cobra only.* Contact Metro Moulded Parts, Inc. if you want specialty floor mats fabricated for your make/model of Cobra! Sold in pairs. Made in the USA!

MG 6502 SERIES ~ GRAVEL SHIELDS (SPATS)

\$18.50 pair

Keep your paint looking good as new and dramatically transform the look of your Cobra replica car with SPATS gravel shields rear fender protectors. SPATS gravel shields are made from the toughest vinyl available and laminated for added protection. They are die-cut with adhesive-backing and top laminated for long life and a paint-quality appearance. They

Cobra Printed Vinyl Racing Stripes

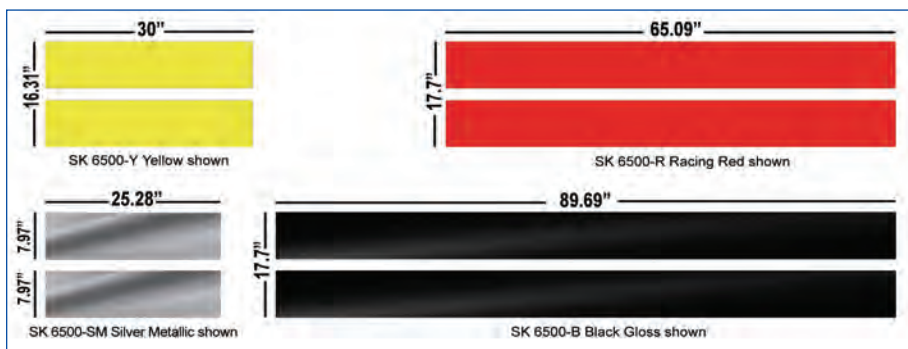

Our peel-and-stick printed vinyl racing stripes have a paint-quality look and feel. They come in seven (7) popular colors and four (4) different styles including *SK 6500 Series Double-Stripe*, *SK 6501 Series Narrow Single-Stripe*, *SK 6502 Series Wide Single-Stripe*, and *SK 6503 Series Rookie Stripe* decals. Use with *Cobra Printed Vinyl Racing Meatballs* in stock numbers as shown on pages 8-9, or pick your style from our *MG 6700 Series Blank Racing Meatballs and Custom Number Sets* shown on page 10!

SK 6500 SERIES ~ COBRA DOUBLE-STRIPE DECAL KITS

\$198.00 per kit

Easy to apply and great looking double-wide stripe kit for your classic AC Cobra. The width of each stripe is 7.97 in. The total width from the outer edge of both stripes is 17.75 in. This striping kit is made from very high quality vinyl and can be removed without damaging your paint underneath. Because our kits are easy to remove you are not locked in to any color combo. This allows any future owners to change the color to their preference. All of our vinyl kits come with easy to install instructions. Comes with an extra section to use, if needed, to install the stripes on your hood scoop separately.

YOUR GUARANTEE OF SATISFACTION

Founded in 1918, Metro Moulded Parts, Inc. is the leading USA manufacturer of top quality molded detail rubber parts and sponge rubber weatherstripping for antique, classic and restoration cars and trucks.

Compare Metro's products to any of our competitors' products and you'll quickly see and feel which product is superior in looks, performance and durability. Try it yourself! You'll see that we don't cut corners when we make an OEM replacement rubber part for your cherished car or truck.

In fact, we take extra care to ensure an identical match to the OEM original, right down to including non-functional details that aren't even visible when the part is installed! Among dozens of small details that contribute to the total quality of the part, at Metro going the extra mile includes hot-splicing component pieces, hand-trimming difficult parts, using the same type of mounting pins and metal cores as the OEM original, and three separate quality control checks during fabrication.

Our pledge is simple: every product we sell must meet our own demanding quality standards. At the root of these standards is this simple test – **if we wouldn't want to put it on our car, we wouldn't want you to put it on yours.** On that, there is no compromise.

You can be proud to use Metro products because we offer the best quality backed by the best guarantee in the business. So insist on Metro quality. And ask for Metro products by name!

Metro SUPERsoft® brand Sponge Rubber – The brand chosen by professional automobile restorers for many years, Metro SUPERsoft® EPDM sponge rubber delivers on its name! It's up to 30% softer than other brands while performing far better than competitive products and lasting years longer.

Due to its unmatched softness and pliability, SUPERsoft® brand sponge rubber weatherstrip and seals are easier to install and fit better than other products. **You won't have to slam your doors or trunk with SUPERsoft® Sponge weatherstrip installed on your car!** SUPERsoft® brand sponge is also the **best looking weatherstrip available** anywhere with a high gloss, smooth black skin that gives a refined Concours appearance. In addition, SUPERsoft® brand sponge rubber provides extraordinary resistance to hardening and decay caused by exposure to ozone and UV light. All Metro products are fabricated from the highest grades of virgin rubber using state-of-the-art, computerized mold-making techniques. These are just a few of the reasons why we can offer an exclusive, **15-year full replacement warranty** on every SUPERsoft® brand sponge rubber part we make and stand behind it with complete confidence. SUPERsoft® brand sponge rubber parts simply have no comparisons.

Metro Legacy PolymersSM brand Dense Rubber – Designed to outlast ordinary dense and solid rubber compounds, the Legacy PolymersSM brand represents a family of advanced rubber formulations and production techniques

developed over decades. Every Legacy PolymerSM rubber compound meets strict production specifications and fabrication guidelines to produce detail rubber parts and components that will *outlast* and *outperform* other solid rubber parts. Legacy PolymersSM compounds contain only virgin rubber, with none of the fillers or accelerators that cause other brands of dense and solid rubber parts to prematurely age and fail. Legacy PolymersSM compounds have additives that provide ozone and UV protection to resist these agents of decay. Our advanced rubber formulations are targeted to the specific applications. These features, along with our advanced computer controls and vulcanization processes, produce long-life solid rubber parts that are truly in a class by themselves.

Import SelectSM – While the vast majority of our customers prefer the highest quality American-made parts for their restored American cars and trucks, Metro offers a limited selection of foreign-made parts for price sensitive users. Of the many parts available from foreign suppliers, *we have carefully*

selected only the very best for our Import SelectSM product line. Some imported parts are inferior reproductions of the OEM originals they are designed to replace. Besides missing details, they may be fabricated from inferior grades of rubber or use cheap, metal cores and obsolete fabrication processes. At Metro Moulded Parts, we buy only from primary manufacturers and control the materials and processes used in production. We offer only those imported parts that meet our high quality standards.
